

IN ANIMAL HEALTH AND CARE

Biofarm Oy is a Finnish manufacturer of special feeds and complementary feeds since 1988. We make products for pets, horses and farm animals. Our mission is to develop and manufacture products that maintain and improve the animals' health, wellbeing and living environment.

This brochure is all about pets, old trusted formulas together with new innovative ideas. We hope from this brochure you can find some interesting products that could add to your current product portfolio. For further information please contact us at biofarm@biofarm.fi

EYES

BIOFARM COMFORT EYE DROPS

Natural moisturizer with hyaluronan. Biofarm natural moisturizer is a gentle, preservative-free comfort eye drops for pets' dry eyes.

It contains natural hyaluronan as moisturizer, no substances of animal origin. Thanks to innovative non-contaminating bottle, an opened product has a 3 months shelf life.

Composition: 0.2% Hyaluronan in sterile isotonic, phosphate buffered solution.

Application: 1-2 drops in the eye as needed. Do not touch the eye or its surroundings with the bottle.

Package size: 10 ml

BIOFARM COMFORT EYE DROPS PLUS

For intensive moisturizing, to relieve moderate and severe dry eye symptoms. The combined action of trehalose and hyaluronan provide hydration, lubrication and stabilization of the tear film, protecting the eye from drying and cell damage. Also a non-contaminating bottle.

Composition: Composition: 2.0% trehalose, 0.25% hyaluronan in sterile isotonic, low-phosphate-buffered solution. No materials of animal origin.

Application: 1-2 drops in the eye as needed. Do not touch the eye or its surroundings with the bottle.

Package size: 10 ml

BIOFARM EYE BATH

Eye bath for gentle cleansing and rinsing of animals' eyes and eye lids. Sterile and fragrance-free Biofarm eye bath contains cleansing ingredients.

Ingredients: Sodium Borate, Sodium chloride, Hydrochloric acid, Disodium EDTA, EDG, Biguanide.

Application: Gently pull the lower eyelid slightly down and put a few drops of the eye bath in the eye. Gently wipe off the impurities and excess eye bath around the eye with a clean cotton ball. Do not touch surface of the eye with the tip of the bottle or the cotton ball. Note: If the eyes are inflamed, consult a vet before using eye bath. If irritation occurs in the eyes when using the eye bath, stop using and consult a vet. Do not touch the tip of the bottle. Close the bottle carefully after use. Use within 4 months after opening.

Package size: 120 ml

MEMORY

MEMOPET

Memopet is a complementary feed that contains a mix of well absorbing, patented grape extract and wild blueberry powder (Phenomind 40mg/tab.). It contains plenty of flavonoids and catechins. Small compounds in the extract pass through the brain-blood barrier and have an influence on cognitive functions in the brain. Micro blood circulation transports oxygen and nutrients into cells, organs and tissues, and removes metabolic waste. The brain gets more oxygen and nutrients to support memory, learning, concentration and vitality.

It is recommended to start the use at the latest when a senior dog shows signs of disturbed interaction, house-training, or sleep pattern. The product can also be used to support concentration on sporting dogs, service dogs and working dogs, as well as on dogs that get stressed easily.

Composition, one tablet:

Phenomind 40 mg (containing frape extract (*Vitis vinifera*) and wild blueberry powder (*Vaccinium angustifolium*))
 Vitamin C 30 mg
 Vitamin E 40 mg
 Vitamin B12 0,5 mg
 Vitamin B6 10 mg
 Folic acid 0,5 mg

Dosing:

Dogs:
 1 tabl. per 10 kg bodyweight per day. Recommended duration of use is minimum 3 months, preferably in periods of 6 months.

Package size: 100 tabl.

SKIN AND COAT

HELOMAX SHAMPOO and CONDITIONER

Helomax shampoo removes debris and excess sebum from the coat and skin while leaving the important outer protective fat layer on the skin. Ingredients and almost neutral pH of the shampoo helps to maintain normal protective bacteria on the skin especially in atopic dogs.

Vitamin E in the Helomax shampoo potentiates the effectiveness of the Gammalinolenic acid that prevents development of the harmful inflammatory mediators in the skin. It also protects EFAs in the product. Natural anti odour ingredients in Helomax shampoo remove effectively unpleasant odours from the skin and coat. Helomax shampoo is non-irritant and can even be used daily. Helomax shampoo is very easy to rinse even from the long coat.

Ingredients, conditioner: Aqua, Cetearyl Alcohol Dipalmitoylethyl Hydroxyethylmonium, Methosulfate, Cetearth-20, Glycerin, Decyl Oleate, Methylsulfonylethane, Citric Acid, Hydrolyzed Wheat Protein, Linoleic Acid, Retinol, Tocopheryl Acetate, Oenothera Biennis, Parfum, Allantoin, Panthenol, Methylparaben, Propylparaben.

Ingredients, shampoo: Aqua, Sodium Laureth Sulfate, PEG-3, Distreate and Sodium Laureth Sulfate, Natrium Chloride, Linoleic Acid, Oenothera Biennis, Tocopheryl Acetate, Methylparaben, Propylparaben, CAS 8004-92-0, Parfum.

Package sizes:
Shampoo 250 ml, 1l.
Conditioner 250 ml

PII-PET

A zinc and diatomite tablet for companion animals. To improve the condition of the coat, nails, and connective tissues.

Composition of one tablet:

Diatomite25 mg
Vitamin C25 mg
Zinc (aminoacidchelate)15 mg

Dosing:

1 tbl. per 10 kg bodyweight/ day

Package size: 100 tabl.

BIOMAX +MSM

Unique composition for dogs and horses. Biotin, nettle, zinc, MSM and mangan improve the condition and luster of the coat, and are important for the regeneration of the skin. The components provide a rich source of nutritions for the healthy synthesis of the protein of coat, nails and hoofs.

Composition of one tablet:

Methyl sulfonyl methane (MSM)...150 mg
Nettle (Urtica Dioica L)20 mg
Biotin 5 mg
Zinc 5 mg
Mangan1,5 mg

Dosing: Dogs: 1 tablet/day/ 10 kg bodyweight for a 4-5 weeks period, after which the intake can be halved for maintenance. Cats: ½ - 1 tbl. / day for a 4-5 weeks period, after which the intake can be halved for maintenance. Horses: 6 tbl./ day for 6 weeks period, after which the intake can be halved for maintenance.

Package size: 60 tabl.

BIOTIN PLUS

Biotin, methionine, zinc, and manganese tablet for dogs and horses. To improve the condition and luster of skin and coat. To reduce the disadvantages brought by old age. To maintain normal hormonal functions. To improve the condition of nails on dogs, hoofs on horses.

Composition of one tablet:

Biotin.....5,0 mg
Methionin.....25,0 mg
Manganese.....1,5 mg
Zinc.....5,0 mg

Dosing:

dogs: 1 tbl. per 10 kg bodyweight/ day
cats: 1 tablet/ day
horses: 4-6 tablets/ day

Package size: 200 tabl

HELOKKI-E

Evening primrose oil and vitamin E for dogs, cats and horses. The evening primrose oil of HELOKKI E is mechanically squeezed without any chemicals, and it is exclusively so called virgin oil. HELOKKI E is used to relieve serious skin disorders especially allergies. It promotes the regeneration of the epidermis cells, which has to take place continuously. Also recommended for dogs and cats preparing for show to enhance the lustre and condition of the coat.

Composition of 100 ml of liquid:

Vitamin E.....800 mg
Linolenic acid.....3,8 g
Gamma-linolenic acid.....9,2 g
Linoleic acid.....54 g

Dosing:

Dogs: 5 drops for dogs less than 5 kg per day, 15 drops per 10 kg weight per day.
Cats: 5 drops per day.

Package size: 50 ml

OMEGAMAX

Omega-3 fatty acids for skin and coat welfare

Composition:

Salmon oil 100 %

Dosing:

For dogs and cats, ml/ day:
under 5 kg 2,5 ml, 5 - 15 kg 5 ml,
15 - 30 kg 10 ml, over 30 kg 15 ml,
horses 15-50ml

Package sizes: 1l, 5l

JOINT CARE

CARTIVET+MSM

Complementary feedingstuff designed by veterinarians, to maintain normal mobility and joint function on dogs. Cartivet can be used on all dogs of all ages, but it is most beneficial for older dogs, or dogs in heavy training and exercise.

Composition of one tablet:

Methyl sulfonyl methane (MSM).....	250 mg
Glucosamine.....	250 mg
Chondroitin sulphate.....	200 mg
Yucca-extract.....	100 mg
Vitamin C.....	20 mg
Manganese (as manganese aminoacidchelate)	2 mg
Zinc (as zinc aminoacidchelate)	1 mg

One measure spoonful of powder (5 ml, 3,3 g) is equal to 3 tablets.

Dosing:

During the first 6 weeks:
On dogs weighing under 10 kg 1 tbl./day
10-25 kg 2 tbl./day
25-45 kg 4 tbl./day
over 45 kg 6 tbl./day
Dosing can be halved for maintenance after 6 weeks.

Package sizes:

300g powder, 100 tabl.

CARTIVET COMPLETE

Cartivet® Complete is a versatile combination of nutrients essential for good joint health. These nutrients protect the joints from enzymes that break down the cartilage-cells, and also promote new cell growth. Supporting good joint health is most important on dogs in heavy exercise, on dogs that suffer already from joint problems, and on elderly animals.

Composition:measurespoon

Glucosamine HCl.....	225 mg
Collagen peptide.....	170 mg
Chondroitin sulphate	130 mg
Methyl sulfonyl methane (MSM).....	126 mg
N-acetyl-D-glucosamine	20 mg
Hyaluronic acid.....	4,2 mg

Dosing:

During the first 6 weeks:
On dogs and cats weighing under 10 kg 2 measurespoons/day,
10-20 kg 4 measurespoons/day,
20-40 kg 6-8 measurespoons/day.
Dosing can be halved for maintenance after 6 weeks.

1 measurespoon = 1 ml = 0,7 g

Package sizes:

300g powder, 150g powder

LYPROMAX

Complementary feedingstuff for dogs. Lypromax contains novel eicosatetraenoic acids (ETA). ETA's reduce the production of prostaglandins in cells. The inflammatory reaction caused by prostaglandins may cause pain in joints and muscles. The ETA's together with other Omega-3 essential fatty acids also promote the wellbeing of skin and coat.

Composition: Cold processed and lyophilized New Zealand green lipped mussel (*Perna Canaliculus*) extract.

Average nutritional value in 100gr capsules:

Energy	1650 kJ/390 kcal
Carbohydrate	11 g
Protein.....	65 g
Fat	10 g
including EPA/ DHA	4,03 g
ETA	48 mg

1 capsule contains 500mg.

Dosing: Cats and under 20kg dogs: Initially give 2 capsules per day for 10 days after which may be reduced to 1 caps. per day. For dogs 20-40kg: Initially 4 caps. / day, after which may be reduced to 2 caps. / day. For dogs over 40 kg: Initially 6 caps. /day for 10 days after which may be reduced to 3 caps. / day.
Horses: initially 4 caps./day for 10 days, after which may be reduced to 2 caps./day.

Package sizes:

72 capsules, 360 capsules

VITALCAT PREMIUM

Complementary feedingstuff for cats. It's versatile composition ensures the daily vitamin intake, and promotes the wellbeing of joints and urinary tract.

Composition of one tablet:

Vitamin A.....	300 IU	L - Cysteine.....	2,5 mg
Vitamin D3.....	50 IU	Pantothenic acid.....	0,5 mg
DL-methionine	50 mg	Vitamin B1	0,5 mg
Taurine	35 mg	Vitamin B6	0,4 mg
Clucosamine.....	25 mg	Vitamin B2	0,3 mg
Chondroitin sulphate..	20 mg	Folic Acid.....	0,08 mg
Niacin.....	3,5 mg	Biotin	0,01 mg
Vitamin E		Vitamin B12.....	0,002 mg
(dl- α -tocopherol)	2,6 mg		

Dosing: Cats less than 5 kg: ½ tablet per day, 5-10 kg: 1 tbl. per day, over 10 kg: 2 tbl. per day. On cats having problems with joints or the urinary tract, the dosing can be doubled for periods of 4-6 weeks.

Package size:

90 tabl.

INTESTINES

KIVETON

Complementary feedingstuff for a healthy urinary tract in dogs and cats with bladder stones and/or urine crystals. Kiveton buffers the urine pH into safe area. It can be used to prevention and treatment of both calcium oxalate crystals and stones, as well as struvite crystals and stones. Consult your veterinarian before using the product.

Composition:

N-acetyl-D-glucosamine cranberry extract, potassium citrate, amino acid product

DL-methionine 50 mg	/measuring cup
.....	80 000 mg/kg

Feeding directions and dosage:

One measuring spoon per 5 kg body weight unless otherwise prescribed by a veterinarian. To be mixed for example with the feed.

Package size: 100g

LIVERON ACUTE

In connection with oxidative stress in all toxic conditions of the liver, on critically ill dogs, and in connection with pancreatitis.

Composition, one tablet:

N-acetylcysteine (NAC) 600 mg

Dosing:

Acute liver stressing situations/ acute liver problems: Orally. First dose 140-280 mg of NAC per kg bodyweight (140 mg/kg is the most common initial dose). Then 70 mg per kg bodyweight every 6 hours, at least 7 times.

Package size: 60 tabl.

VIGORON CARDIO

Vigoron cardio contains several antioxidants to support the well-being of the heart (muscles) and blood vessels. Carnitine has an important role in energy metabolism especially in oxidation of fatty acids in mitochondria. Taurine participates in calcium pathway regulation in cells. Pycnogenol in a natural vegetal antioxidant which has beneficial influence on the heart and blood vessels function. Ubiquinon participates in cellular breathing and protects cell membranes from lipid peroxidation. Vitamin E has an important role in muscle function, it protects also cells from oxidation. Vigoron cardio is especially useful for seniors, but also for sports dogs and recovering individuals.

Composition:

Pycnogenol® (0,83 %), cranberry

Additives:

	/ measurespoon	/ kg
L-carnitine.....	240 mg	400 000 mg
Taurine.....	125 mg	200 000 mg
Ubikinone.....	12,5 mg	20 000 mg
Vitamin E.....	30 mg	50 000 mg
Selenium(organic)	3 mcg	5 000 mcg

Dosing:

weight of the animal (dogs and cats):
1-15 kg:3 measure spoons daily
15- 40 kg:.....6 measure spoons daily
>40 kg:9 measure spoons daily

To be mixed with food. Daily dose should be divided into two feedings.

measure spoon (1 ml)
= n./ca. 0,6 g

Package size: 170 g

STOMACH

BIOLYT

Concentrated oral electrolyte. Used to substitute for the loss of liquids and electrolytes and to maintain the liquid balance in case of possible dehydration; during diarrhoea, on a hot day, after heavy training etc.

Composition:

Sodium chloride	26.0 mg/ml
Potassium chloride	21.0 mg/ml
Sodium bicarbonate.....	50.0 mg/ml
Glucose.....	340.0 mg/ml
Purified water	

Biolyt is easy to use: the solution is diluted in clean household water in ratio 1,5 : 10, e.g. 1 table spoonful (15 ml) to 100 ml of water.

Package sizes: 250 ml, 5 l

BIODAK

Complementary feedingstuff containing lactobacillus for pets. To maintain intestinal wellbeing during course of antibiotics and diarrhea. Also to be used in cases of stress, heavy training or changes in diet.

Composition:

Barley, glucose.
Feed additive gut flora stabilisers:
Enterococcus faecium
NCIMB 10415 (E 1705)
.....2 x 10¹¹ cfu/kg

Dosing:

Cats 1 tea spoonful/ day, dogs under 5 kg 1 tsp/ day, dogs 5-10 kg 1-2 tsp/ day, dogs 10-30 kg 2 tsp/ day, dogs 30-60 kg 3 tsp/ day , rodents 1/4 tsp/ day, rabbits 1 tsp/day

Package size: 175 g

INUPEKT FORTE

The inulin of Inupekt forte is a natural prebiotic which maintains a favourable bacterial flora in the intestines. Inulin has a positive bifidogenic influence in the intestines. It cleans out the intestines by reducing the amount of harmful intestinal bacteria and thus leading to a more healthy bacterial flora. Glucan boosts the effect of inulin by inhibiting the attachment of harmful bacteria to the wall of intestines. Glucan also boosts the immunological resistance of body. Pectin cleans the intestines and solifies the faeces during diarrhea.

Composition of one tablet:

Inulin	300 mg
Pectin	30 mg
β-1,3/1,6-glucan.....	30 mg

Dosing:

Pet's weight: under 10 kg 1 tabl./ day, 10 – 20 kg 2 tabl./ day, 20 – 40 kg 3 tabl./ day, over 40 kg 4 tabl./ day. Can be used continuously, or in periods of 3 - 4 weeks. Dosing can be doubled during diarrhea.

Package size: 60 tabl.

KAOPEKT FORTE

Kaopekt Forte is a complementary feed for dogs and cats, to be used during acute digestive disorders. Kaopekt Forte is based on the association of three ingredients:

- Kaolin has absorbent properties.
- Pectin increases viscosity of stool.
- FOS has prebiotic properties and promotes growth of physiological intestinal microflora.

Composition: Oligofructose syrup 15,0%, pectin 0,5%.

Technological additives:
kaolinitic clays (free of asbestos (E 559)) 200 000 mg/ kg

Dosing: Shake vigorously before use. Administrate 1 ml/kg 2-3 times per day, for 3-4 days or as instructed by veterinarian. For correct dosing, use the dosing syringe (comes with the bottle) and administer the correct amount directly into the mouth.

Package size: 200 ml

VITAMINS AND MINERALS

B-MAX

Complementary feedingstuff for dogs and cats for increased need of B-vitamins, for example during stress or hard physical training. Recommended also to be used when problems relating muscular- or nervous system.

Composition of one tablet:

B3-vitamin	18 mg
B5-vitamin	4 mg
B6-vitamin	2,2 mg
B2-vitamin	1,6 mg
B1-vitamin	1,4 mg
Folic acid	300 µg
B12-vitamin	3 µg
Biotin	30 µg

Dosing: 1 tablet / day / 10 kg bodyweight

Package size: 150 tabl.

BIOKALK

Calcium, Phosphorous, and Zinc tablet for dogs and cats. All ingredients essential for the development of bones and connective tissues.

Composition of one tablet:

Calcium	240 mg
Phosphorous	62 mg
Zinc	0.36 mg

Dosing: Growing puppies 1 tablet per kg of weight/day. Adult dogs 1-2 tbl. per 10 kg of weight/day. Pregnant and lactating bitches 2-3 tbl. per 10 kg of weight/day. Cats 1 tbl./day

Package size: 200 tabl.

C-MAX

Complementary feedingstuff for guinea pigs and other small animals for increased need of vitamin C.

Nutritional composition:

Ascorbic acid (vitamin C) 990 mg/g
1 measuring spoon contains about 700 mg of vitamin C.

Dosing: Guinea-pigs: ½ -1 measuring spoons mixed with 1 litre of water daily, or ¼ measuring spoons mixed with forage every other day. For pregnant guinea-pigs: double the dosing. Suitable also for other small animals.

Package size: net weight 100 g

KALKVITA

Complementary feeding-stuff containing calcium, phosphorus and vitamins for dogs and cats.

Composition of one measure spoon (5 g= 1 teaspoon):

Calcium	1500 mg
Phosphorus	500 mg
Vitamin A	400 IU
Vitamin D3	40 IU
Vitamin E	4 mg
Vitamin B1	0.1 mg
Vitamin B2	0.2 mg
Vitamin B6	0.1 mg
Vitamin B12	2 mcg
Folic acid	10 mcg
Biotin	4.5 mcg
Vitamin C	4.8 mg
Niacin	1 mg
Pantothenic acid	0.8 mg
Flavouring agents of plant origin	

Dosing: Pregnant and lactating bitches, and growing puppies 1 measure spoonful per 2 kg of weight/day. Adult dogs 1 measure spoonful per 6 kg of weight/day.

Package sizes: 300 g, 1000 g

VITAMAX

Complementary feeding stuff for dogs, cats, and rodents. Vitamax provides an essential range of vitamins and trace elements for your pet's everyday needs. Contains also L-Carnitine to support the fat metabolism.

Nutritional composition

	mg/tablet:		
Vitamin A	2000 IU	Vitamin K3	2 mg
Vitamin D3	100 IU	Pantothenic acid	1,7 mg
Vitamin C	35mg	Vitamin B2	1,5 mg
Vitamin E	25 mg	Vitamin B1	0,9 mg
DL- methionin	20 mg	L- carnitin	0,2 mg
Niacin	6 mg	Folic acid	0,1 mg
Vitamin B6	5 mg	Vitamin B12	0,02 mg
		Selenium	0,02 mg

Dosing: Dogs: 1 tablet / 10 kg daily. Cats: ½ - 1 tablet daily. Rodents: ¼ - ½ tablet once a week.

Package size: 100 tabl.

ISLAMER

Feed material for dogs. Islamer contains Ascophyllum nodosum -seaweed from cold and fresh waters around Iceland. It contains plenty natural amino acids (building blocks for proteins), vitamins and trace-elements. Seaweed is also a rich source of iodine. Iodine promotes normal functions of thyroid hormones, thus regulating levels of metabolism. Seaweed is ideal for example during raw feeding to promote the intake of Iodine and other essential nutrients. Note: Natural high level of Iodine in seaweed should be noted while using it on dogs with thyroid or liver malfunction, and on pregnant animals.

Composition:

algae (Ascophyllum nodosum) 100 %

Dosing, 1000 g package:

Large dogs: 1 teaspoon daily
Small dogs: . teaspoon daily
1 teaspoon: (5 ml) = app 3g

Dosing, 200 g package:

dog's weight: daily dose,
.....measure spoons:
<2,5 kg 1/4
2,5-5 kg 1/2
5-10 kg 1
10-15 kg 1 1/2
15-20 kg 2
>20 kg: 1/2 cups per 5 kg weight

measure spoon = app. 0,7 g

MAXIM

MAXIM EAR CLEANER

Ear cleanser for dogs and cats.

Ingredients: Propylene glycol, Aqua, Aloe Barbadensis Leaf Juice (Aloe Vera extract), Menthol, Hydroxyethyl Cellulose, Chlorhexidine Digluconate, Propylparaben, Benzalkonium Chloride.

Directions for use: Drop 5 – 10 drops in the ear canal. Massage gently on the base of the ear for about 1 minute. Let your pet shake the head so that the loosened dirt comes out of the ear and wipe the dirt from the ear canal opening. Repeat if needed. Can be used 1–2 times a week or when needed. If the ear shows signs of inflammation (reddening, pus, or the animal scratches or shakes his head), contact your veterinarian before use.

Package size: 100 ml

MAXIM EYE BATH

For cleansing the eyes and eye lids on dogs and cats.

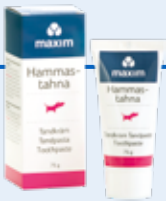

Ingredients: Aqua, Sodium Chloride, Sodium EDTA, Benzalkonium Chloride.

Directions for use:
Eyes: Drop plenty of cleanser on the eye. Gather the impurities and excess of liquid on a compress. Repeat if needed. Avoid touching the eye with the nozzle of the bottle.

Eye lids: Clean the eye surround with a compress impregnated with the eye cleanser. MAXIM eye cleanser can be used 1-2 times a week or more often if needed. If the eye shows signs of inflammation (reddening, lacrimation, opacity or pain) contact your veterinarian before use.

Package size: 100 ml

MAXIM TOOTHPASTE

Toothpaste for dogs with liver taste and enzymes.

Ingredients: Calcium Carbonate, Aqua, Sorbitol, Glycerin, Carogeenan, Propyl Hydroxybenzoate, Flavour, Amylloglucosidase, Glucose Oxidase.

Directions for use:

Use a brush designed for dogs, or a normal soft brush.

Directions for use: Brush the teeth with circular movements, starting from the outside of the teeth. Brush daily or when needed.

Package size: 75 g

MAXIM 2 IN 1 SHAMPOO WITH CONDITIONER

Shampoo & conditioner for all pets, supplying moisture and care to fur and skin. Especially suitable for breeds with long hair, leaving the fur soft, dense and easy to comb.

Ingredients: Aqua, Sodium Laureth Sulfate, Cocoamide DEA, Propylene Glykol, Cocoamidopropyl Betaine, Polyquaternium-10, Glycol Stearate, Cocoamide MEA, Parfum, Citric Acid, Phenoxyethanol, Sodium Benzoate, Ethylglycerin.

Directions for use: Massage the shampoo into wet fur – avoiding shampoo in the eyes – and leave on for 2-3 minutes. Rinse thoroughly. Use a towel to dry, and comb when the fur is almost dry.

Package size: 250 ml

MAXIM CAT MALT

Complementary feedingstuff for cats. When cats wash their coat by licking, hairballs can be formed in the stomach. This can cause disturbances to the digestion. Cat malt may help hairballs pass through the digestive system, and stimulate also appetite.

Composition: paraffin oil, malt extract, aqua

Feed additives: preservative

Directions for use: 2-3 cm of cat malt is given orally directly into the mouth 2-3 times daily in between meals.

Nutrients:

crude protein.....2,8 %
crude fat1,0 %
crude fibre1,0 %
moisture15,0 %
crude ash.....1,0 %

Package size: 50 ml

MAXIM FORESKIN CLEANER

For cleaning the foreskin on dogs. Please observe if there are infections or other signs that demand veterinary care.

Ingredients: Glycerol, Aqua, Phenoxyethanol, Thymol, Ethylhexylglycerin

Directions for use: Clean the foreskin opening with cottonwool moistured with foreskin cleaner. Place a single use canule on the injector and fill with cleaner. Inject cleaner into the foreskinfold keeping the foreskinfold closed. Massage gently in order to distribute liquid fully. Allow the foreskin cleaner to run out, then wipe the opening with cottonwool. Clean the foreskin once a week, in special cases daily or as needed.

Package size: 100 ml

MAXIM MULTIVITAMIN

Feed supplement for birds and rodents. Important nutrients to help support general health and immune system.

Directions for use: mix with water or food.

Composition of 100 ml:

Vitamin B111.500 mcg
Vitamin B230.000 mcg
Vitamin B613.500 mcg
Vitamin B12.....300 mcg
Vitamin C.....11.500 mcg
Vitamin D385 mcg
Pantothenic acid.....115.000 mcg
Niacin.....155.000 mcg
Folic acid3.000 mcg
Biotin20 mcg

Daily dosing:

.....(Drops/weight):
Rabbit:30/4 kg
Minirabbit:.....4-5/1kg
Guineapig:.....4-5/900 g
Hamster:.....1/100 g
Small birds:.....1/80 g
Big birds:.....1-2/100 g

MAXIM BITTER SPRAY

Bitter spray is a bitter solution that prevents licking of wounds, gnawing of coat, plucking of feathers, biting bandages etc. The unpleasant taste will discourage animals from licking the treated areas.

Ingredients: Aqua, Denatonium-benzoat, Benzalkonium Chloride, Potassium sorbate.

Directions for use: Spray directly on the desired area/ target. Repeat if necessary. Do not spray in the eyes. Small, quickly disappearing irritation can be observed when spraying on open wounds.

Package size: 100 ml

MAXIM PAW WAX

Paw wax for dogs. Protects the pads against water, snow and salt. Reduces also harmful scratches from gravel or other sharp items.

Ingredients: Aqua, Cera Alba, PEG-40 Hydrogenated Castor Oil, Propylene Glycol, Dimethicone, Phenoxyethanol, Sodium Carbomer, Ethylhexylglycerin, Potassium Sorbate.

Directions for use: Apply the paw wax on the dog's paws. It creates a strong protective film-layer.

Package size: 50 ml

MAXIM HEXASPRAY

For disinfection of small skin wounds on dogs and cats. Contains 0,5% chlorhexidine diacetate.

Ingredients: Aqua, Sodium Acetat, Chlorhexidin Diacetat, Acetic Acid.

Directions for use: Spray directly on skin 1-2 times per day, or when needed. Don't let the animal lick the treated area. Do not use in larger open wounds, as it might slow down the healing process.

Package size: 100 ml
